## PROJECTS

[Responsive Landing Page ↗](#)  
Jul 2024 - Aug 2024

I successfully developed and optimized a responsive landing page for a Travel-Planner website. This experience allowed me to enhance my skills in HTML, CSS, JavaScript, and responsive design, creating a seamless and engaging user experience.

[Stopwatch Application ↗](#)  
Jul 2024 - Aug 2024

I've created a Stopwatch Web Application using HTML, CSS, and JavaScript. This project has been an incredible learning opportunity, allowing me to enhance my skills in:

- HTML for structuring the content.
- CSS for designing a sleek and responsive layout.
- JavaScript for implementing dynamic functionalities.

Key Features of Stopwatch Web Application :

- Start, Stop, and Reset controls
- Lap time recording
- User-friendly interface

[Tic-Tac-Toe Web Application ↗](#)  
Jul 2024 - Aug 2024

Building this interactive game was a fantastic experience. Here are some of the key features I implemented:

- User-friendly interface with a responsive design.
- Functions to handle user clicks and track the game state.
- Logic to check for winning conditions and declare the winner.
- Option for users to play against each other or an AI opponent.
